

GS21 1171 NIH Fellowship Proposal Development

Summer 2019

Time: Wednesdays 12:30 – 2:00 PM

Location: GSBS Conference Room (BSRB S3.8355)

Course Directors:

Kelly A. Moore, PhD
Assistant Director of Graduate Education
Kelly.Ann.Moore@uth.tmc.edu
713-500-9874

Eric C. Swindell, PhD
Associate Dean of Graduate Education
Eric.C.Swindell@uth.tmc.edu
713-500-9881

Course Description:

This course is designed for students who intend to submit an NIH fellowship application (F30, F31, F99/K00) at the end of the course. Participants will learn about the components of a fellowship application, how to develop an effective training plan, and the peer review process. By the end of the course, participants will have developed a complete draft of their application. Participants are expected to have completed the GSBS Scientific Writing Course, or equivalent, as the Research Strategy and Specific Aims sections will not be covered.

Course Objectives:

By the end of this course, students will

- Objective 1: Understand NIH program announcements and the peer review process
- Objective 2: Develop training goals and identify appropriate training activities
- Objective 3: Improve critical thinking and scientific communication for grantsmanship
- Objective 4: Produce a draft of a complete NIH Fellowship application

Grading:

The Pass/Fail grade will be determined on the student's attendance (30%), participation in the weekly lectures (30%), and completion of written assignments (40%). A passing grade will not require submission of the fellowship application, as delays with the scientific progress can cause students to need wait until the next deadline cycle.

Course Schedule:

Date	Topic
Week 1 May 22, 2019	General Overview, PA Walkthrough, Administrative Components, Beginning with the End: Peer Review Process
Week 2 May 29, 2019	Panel Discussion with Currently Funded Students and Recent Faculty Reviewers
Week 3 June 5, 2019	Training Plan Part 1: Previous Research Experience, Individual Development Plan
Week 4 June 12, 2019	Training Plan Part 2: Training Goals & Objectives, Activities Planned Under Award
Week 5 June 19, 2019	Sponsor and Co-Sponsor Statement, Letters of Support v. Letters of Reference
Week 6 June 26, 2019	NIH Biosketch
Week 7 July 3, 2019	Respective Contributions, Selection of Sponsor and Institution, Training in the Responsible Conduct of Research
Week 8 July 10, 2019	Project Summary/Abstract, Project Narrative, Facilities and Other Resources, Equipment, Animal/Human Protocols
