

New GSBS Members – December 2018

Regular Members:

Shervin Assassi

Associate Professor

Internal Medicine – Rheumatology

McGovern Medical School – UTHealth

M.D., Albert Ludwig University, 1999

M.S., McGovern Medical School – UTHealth, 2010

Research interests: Pathogenesis of Systemic Sclerosis, Development and Validation of Predictive Biomarkers Utilizing Global Gene Expression and High Through-Put Proteomic Profiling, Role of Interferon Pathway in Fibrotic Diseases

Kendra S. Carmon

Assistant Professor

Texas Therapeutics Institute - Institute of Molecular Medicine

McGovern Medical School - UTHealth

Ph.D., UT MDACC UTHealth GSBS, 2008

Research interests: Therapeutics, Signal Transduction, Colon Cancer, Cancer Stem Cells, Antibody-Drug Conjugates, Chemoresistance

Min Jin Ha

Assistant Professor

Biostatistics

MD Anderson Cancer Center

Ph.D., University of North Carolina-Chapel Hill, 2013

Research interests: Graphical Models, High-Dimensional Data, Causal Interference, Bayesian Statistics, Integrative Modeling, Data Science, Omic Data, Precision Medicine, Cancer

Eugene J. Koay

Assistant Professor

Radiation Oncology

MD Anderson Cancer Center

M.D., Baylor College of Medicine, 2009

Ph.D., Rice University, 2008

Research interests: Cholangiocarcinoma, Hepatocellular Carcinoma, Pancreatic Cancer, Physical Oncology, Radiomics

Associate Members:

William R. Miller

Assistant Professor

Internal Medicine – Infectious Diseases

McGovern Medical School - UTHealth

M.D., McGovern Medical School - UTHealth, 2010

Research interests: Antibiotic Resistance, Enterococci, Daptomycin, Cell Stress Response, Membrane Adaptation

Kate E. Mowrey

Instructor

Pediatrics

McGovern Medical School – UTHealth

M.S., UT MDACC UTHealth GSBS, 2018

Research interests: Medical Genetics, Genetic Counseling, Tuberous Sclerosis Complex, Neurodevelopmental Disorders, Mental Health

Michael Overman

Professor

Gastrointestinal Medical Oncology

MD Anderson Cancer Center

MD, Johns Hopkins School of Medicine, 2000

Research interests: Gastrointestinal Medical Oncology, Transparency of Clinical Research, Immunotherapy

Alexandre Reuben

Assistant Professor

Thoracic/Head & Neck Medical Oncology

MD Anderson Cancer Center

PhD, University of Montreal, 2014

Research interests: Immunology, Immunotherapy, Lung Cancer, Melanoma, T Cells, Antigen Presentation, Tumor Microenvironment
