Regular Members:

**Xiangli Yang Elefteriou**  
Associate Professor  
Pediactrics  
UTHHealth McGovern Medical School  
Ph.D., University of Alabama at Birmingham, 2000  
Research interests: Molecular and human genetics, cellular signaling, skeletal biology, transcription regulation, developmental biology

**Peter M. Grace**  
Associate Professor  
Symptom Research  
MD Anderson Cancer Center  
Ph.D., University of Adelaide, 2011  
Research interests: Neuroimmunology, glia, pain

**Rachael W. Sirianni**  
Assistant Professor  
Neurosurgery  
UTHHealth McGovern Medical School  
Ph.D., Yale University, 2008  
Research interests: Biomedical engineering, polymeric biomaterials, nanoparticles, drug delivery, pediatric neuro-onology

**Jun Wang**  
Assistant Professor  
Pediactrics  
UTHHealth McGovern Medical School  
Ph.D., Texas A&M Health Science Center, 2010  
Research interests: Craniofacial and cardiac development, diseases and regeneration

**Wantong Yao**  
Assistant Professor  
Translational Molecular Pathology  
MD Anderson Cancer Center  
Ph.D., Fudan University, 2012  
Research interests: Drug and druggable gene screen, biomarker discovery, genomic engineered mouse model of disease, patient derived xenograft model, tumor biology, preclinic research, pancreatic cancer, sarcoma
Associate Members:

**Erica M. Bednar**  
Genetic Counselor  
Clinical Cancer Genetics  
MD Anderson Cancer Center  
M.S., University of Pittsburgh, 2013  
**Research interests:** Cancer genetics, genetic counseling, public health, quality improvement

**Alana C. Cecchi**  
Assistant Professor  
Internal Medicine  
UTHealth McGovern Medical School  
M.S., University of Cincinnati, 2011  
**Research interests:** Genetic counseling, cardiovascular genetics, hereditary vascular disease, molecular genetics, clinical translational research

**Suhendan Ekmekcioğlu**  
Professor  
Melanoma Medical Oncology  
MD Anderson Cancer Center  
Ph.D., University of Istanbul, 1993  
**Research interests:** Tumor inflammation, immune regulation in tumor microenvironment, translational molecular biomarkers

**Gabriel R. Fries**  
Instructor  
Psychiatry and Behavioral Sciences  
UTHealth McGovern Medical School  
Ph.D., Federal University of Rio Grande do Sul, 2014  
**Research interests:** Epigenetics, mood disorders, addiction, stress

**Samuel M. Hyde**  
Genetic Counselor  
Clinical Cancer Genetics  
MD Anderson Cancer Center  
MMSc., Emory University School of Medicine, 2015  
**Research interests:** Hereditary cancer, hereditary endocrine neoplasia, cancer genetics, genetic counseling

**Meagan E. Kaulfus**  
Genetic Counselor  
Clinical Cancer Genetics  
MD Anderson Cancer Center  
M.S., MD Anderson UTHealth Graduate School, 2017  
**Research interests:** Genetics, cancer genetics, genetic counseling
**Michael P. Kim**  
Assistant Professor  
Surgical Oncology  
MD Anderson Cancer Center  
M.D., University of North Caroline – Chapel Hill, 2005  
**Research interests:** Pancreatic cancer, transcription factors, preclinical therapeutics, cancer model systems

**Jessica L. Ross**  
Genetic Counselor  
Clinical Cancer Genetics  
MD Anderson Cancer Center  
M.S., MD Anderson UTHealth Graduate School, 2016  
**Research interests:** Genetic counseling, cancer genetics, pediatric genetics, adolescent and young adult genetics

**Donika Saporito**  
Genetic Counselor  
Clinical Cancer Genetics  
MD Anderson Cancer Center  
M.S., Ohio State University, 2016  
**Research interests:** Genetics

**Grace Tran**  
Genetic Counselor  
Clinical Cancer Genetics  
MD Anderson Cancer Center  
M.S., University of Cincinnati, 2014  
**Research interests:** Genetic counseling, hereditary cancer, cancer genetics

**Rachel Webster**  
Genetic Counselor  
Clinical Cancer Genetics  
MD Anderson Cancer Center  
MMSc., Emory University, 2014  
**Research interests:** Genetic counseling, clinical hereditary cancer risk assessment
