GSBS Faculty – June 2018

Regular Members:

**Carrie R. Daniel-MacDougall**
Assistant Professor
Epidemiology
MD Anderson Cancer Center
Ph.D., Emory University, 2008
Research interests: nutritional epidemiology, cancer epidemiology, biomarker-driven interventions, microbiome, clinical and translational collaborative research

**Robert R. Jeng**
Assistant Professor
Genomic Medicine & Stem Cell Transplantation Cellular Therapy
MD Anderson Cancer Center
M.D., Oregon Health and Science University, 2001
Research interests: microbiome, hematopoietic cell transplantation, cancer immunotherapy, immunology

**Ashish Kapoor**
Assistant Professor
Center for Human Genetics
UTHHealth McGovern Medical School
Ph.D., Jawaharlal Nehru Centre for Advanced Scientific Research, 2007
Research interests: human genetics, genomics, cardiovascular, regulation of gene expression

**Hyun-Eui Kim**
Assistant Professor
Integrative Biology and Pharmacology
UTHHealth McGovern Medical School
Ph.D., The University of Texas Southwestern, 2006
Research interests: aging, age-related diseases, protein homeostasis, stress response, mitochondria, protein aggregation, neurodegenerative diseases

Associate Members:

**Qi Lin Cao**
Associate Professor
Neurosurgery
UTHHealth McGovern Medical School
M.D., Baylor College of Medicine, 2005
Research interests: spinal cord injury, neural stem cell, astrocyte reprogramming, oligodendrocytes, stroke, axonal regeneration
Alastair M. Thompson
Professor
Breast Surgical Oncology & Translational Molecular Pathology
MD Anderson Cancer Center
M.D., University of Edinburgh, 1990
Research interests: breast cancer, molecular and cell biology, drug actions, preinvasive malignancy (DCIS)

Nikolaos M. Zacharias
Assistant Professor
Obstetrics, Gynecology and Reproductive Sciences
UTH Health McGovern Medical School
M.D., Human Medical University, 1990
Research interests: MFM - OB/GYN - prenatal diagnosis, hispanic prenatal population
