

## Graduate School of Biomedical Sciences

### Notification of M.S. Program Affiliation:

For purposes of classification, “Biomedical Sciences” is considered to be the primary area of concentration of all GSBS Individualized M.S. students except for students who have affiliated with either the [Cancer Biology](#) or the [Therapeutics and Pharmacology](#) Program. Students who wish to learn more about these Programs and/or get permission to join should contact the [Program Directors](#).

To formalize your affiliation with one of these two programs, you must submit this signed form to Bunny Perez in the GSBS Office of Academic Affairs.

Please check the program with which you will affiliate:

- Cancer Biology
- Therapeutics and Pharmacology
