Microscope, brain slices
Brain models, half brains
Sensory experience
Egg helmets- bicycle safety
Muscle Spiker Box
Stroop Effect
Neuro Exams
Optical Illusions
Hand Stamps/Face Painting

The **Axonal Guide Award** honors a PI whose groundbreaking research and exceptional mentorship help mold the future of brain science. **Chosen by students**, this award recognizes someone who skillfully combines innovative science with nurturing guidance, shaping the future of both the field and its emerging scholars. It celebrates the rare ability to construct new understandings in neuroscience while also building the next generation of scientific minds.

Students, click the title to nominate/vote for round one!

spring symposium

Keynote Speaker:

Dr Kelly Bijanki

Friday, May 3, 2024

Registration opens March 18

snaps 🤔

Did someone go above and beyond? Did you get an award? Fill out this form, and we will highlight your snaps, big or small!

Snaps to...

Beatriz Rios, Amanda Solbach, & Stephen Farmer (Advisor: Sheng Zhang, PhD) for publishing a research article in PLOS Genetics! Way to go, everyone!

Heather Tsong & Stephen Farmer (Advisors: Andrea Stavoe, PhD & Sheng Zhang, PhD, respectively) for being the 2023-24 UTHealthLeads MD Anderson UTHealth Houston Graduate School fellows. Awesome work, y'all!

Stephen Farmer (Advisor: you should know by now) for just existing and doing his thing. Can you just make Neuro your primary already?

Madison Shyer for getting a (co-) first author paper on her rotation project in the Paul E. Schulz lab accepted for publication in PLOS Digital Health!
